3: Select **EDIT**.

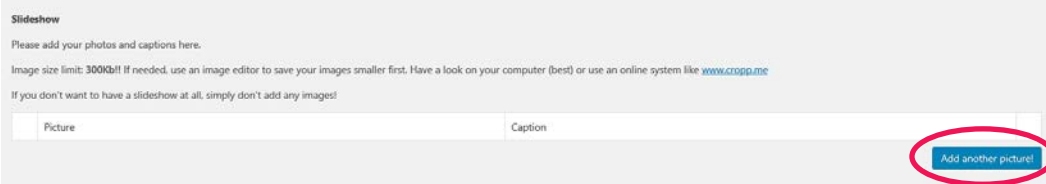

4: To select your **Main Picture** which will be used as your profile's master image across the site, click **ADD IMAGE**. This will take you back to the image library where you can select one of your uploaded images.

5: If you'd like to include an optional larger image that will appear on your profile site, follow **Step 4** on this box.

6: To create a scrolling slideshow of images which will appear on your profile site, click **ADD ANOTHER PICTURE** and follow the same steps as above. Keep clicking **'ADD'** to add more images!

Special note: Be sure to click **'SAVE DRAFT'** at the top of the page often as not to lose any changes, and click **'PREVIEW'** before publishing to see how your page will appear.
